

Linen Lavender Water

This water has been distilled from our own Grosso Lavender for laundry use to give a wonderful refreshing fragrance to your linen.

Spray onto linen before ironing. Do not use on silk.

Produced by steam distillation, Linen Lavender Water contains distilled water and essential Oil of Lavender, together with the water soluble properties of Lavender not present in the oil - **500mls**

Traditional Lavender Water

Developed from a 1929 recipe, we allow this Cologne to mature for twelve months before bottling. During this time the fragrances develop into a distinctive bouquet unlike the original ingredients.

Traditional Lavender Water is ideal as an eau de toilette, which uplifts the spirit and enhances personal well-being - **175mls**

Lavender Mist

This unique fine fragrance body and room spray, infused with pure Lavender Oil and essential oils is a wonderful tonic for the soul.

Often used at barbeques as a spray to control mosquitoes.

Spray on as a refreshing personal reviver, or to refresh and restore peace to a room - **175mls**

Alpha Lavenders ..naturally enhancing personal well-being

Operated by Beverley and Ian Parlane, Alpha's Lavender farm is situated at Orakau, 8kms south of Te Awamutu.

We process our lavender flowers in our distillery within twelve hours of picking. Our oil is then matured for twelve months allowing the oil compounds to naturally mellow and blend, to achieve the unique character and quality we require.

With export in mind, we have used an Auckland based research laboratory to help in developing a range of fine quality products, each containing essential oil of lavender distilled on our Orakau property.

Our product range includes those items mentioned elsewhere, as well as vegetable and glycerine soaps, solid vegetable shampoo bar, bath crystals and bath salts.

We offer an unconditional guarantee on all products.
